hello. How are you?. I hope very well, I am writing here to tell you not to worry. I say this because we have had some rather negative reviews, but that building was not much consistency in the narrative of the paginas.Pues I should clarify that these chapters are translated from Spanish to English is not our native language, but do not worry improvement and there will be from the next chapter. I mean chapter 9.

If you have doubts about the manga or anime can contact the website that referred my friend. She is translating my English translations. Paciencia Tenganle please remember always eventually improves. I know I'm the living prube:
